

Well Architected Reviews

Elevating the reliability, efficiency, and security of your AWS workloads

Escala 24x7 can help you with the review of your current infrastructure and optimize your computing environment, following AWS best practices to help create operational efficiencies, WITHOUT it costing you a dime!

- Escala 24x7 it's been CERTIFIED by AWS to make Well Architected Reviews
- We have carried out more than 200 WAR projects over the last 5 years

Here's why it matters:

- Offer a structured mechanism to exert meaningful change in your infrastructure.
- Opens the way for other business benefits, such as improved user experience, biz agility, and accelerating time-to-market
- Addresses potential security vulnerabilities before incidents happen
- Allows you to take advantage of AWS's WAR incentives

Here's another reason:

Amazon offers an incentive for ALL customers who are willing to drive a Well-Architected Review and fix their main vulnerabilities, the conditions:

- Must be production workloads
- Need to fix at least 25% of high Risk Issues identified during the assessment
- It must be done through a Certificated Partner... that's us!

5,000 USD*

In AWS console Credit

* Per workload

**Evaluate your infrastructure.
Design a better roadmap. It's
all within reach.**
